

T8 LED Semiconductor Light Tube
 Model Number: T848LED110240
SPECIFICATIONS

Specifications:

		<i>Soft</i>	<i>Cool</i>	<i>Daylight</i>
Operating Voltage:	110-240VAC			
LED Quantity:	288			
Light Output:	Comparable to 2,400 lumens			
Colour Temperature:	Variance of $\pm 500K$	3,800K	4,800K	5,800K
Operating Temperature:	minus 40° ~ 45°C			
Power Consumption:	15-18W			
Pin Type:	G13			
Diameter:	1.125"(2.8cm)			
Length:	48"(121.9cm)			
Weight:	0.8lbs.(380g)			
LUX:	480			

Features:

- Does not require a ballast
- Reduces power consumption
- No EMI (Electro Magnetic Interference)
- No Electronic Hum (Silent Operation)
- Flicker Free
- Maintenance Free
- Contains no mercury
- Cold Environment Dependable/Friendly
- 90% Power Factor
